AIRCRAFT RESOURCE CENTER
@ <http://www.aircraftresourcecenter.com>

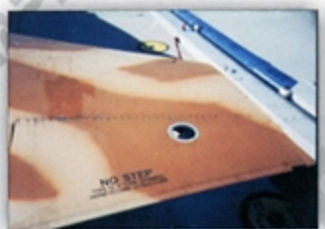

Many of the F-5Es of VFC-13s are old
USAF aggressor birds. The following
"mods" apply to the A/C on this sheet.

Thanks to Fred Krause for all the info.!

"02" - Old USAF bird but with duckbill
nose and LEX mods. This A/C also
retains the top tail antenna and does
have a radar.

"03" - Standard old USAF bird. A/C
does have a radar.

"23" - Standard USN bird but with
USAF style round radome.
No radar installed.

Note:
All wingtip launch rails are Fs36375

Fs30117
Testors MM 1701
Humbrol HU186
Gunze Sangyo N/A

*The A/C of VFC-13 are based at Fallon NAS
which is located in Reno, Nevada.*

*VFC-13 is one of the only true aggressor squadrons
left in the US Navy. The pilots of The Fighting Saints
are comprised of both active duty and part
time reserve pilots.*
