

# AeroMaster™ PRODUCTS

 **Anytime Babe!! Pt. III**

Suggested Kit: Hasegawa F-14 Tomcat

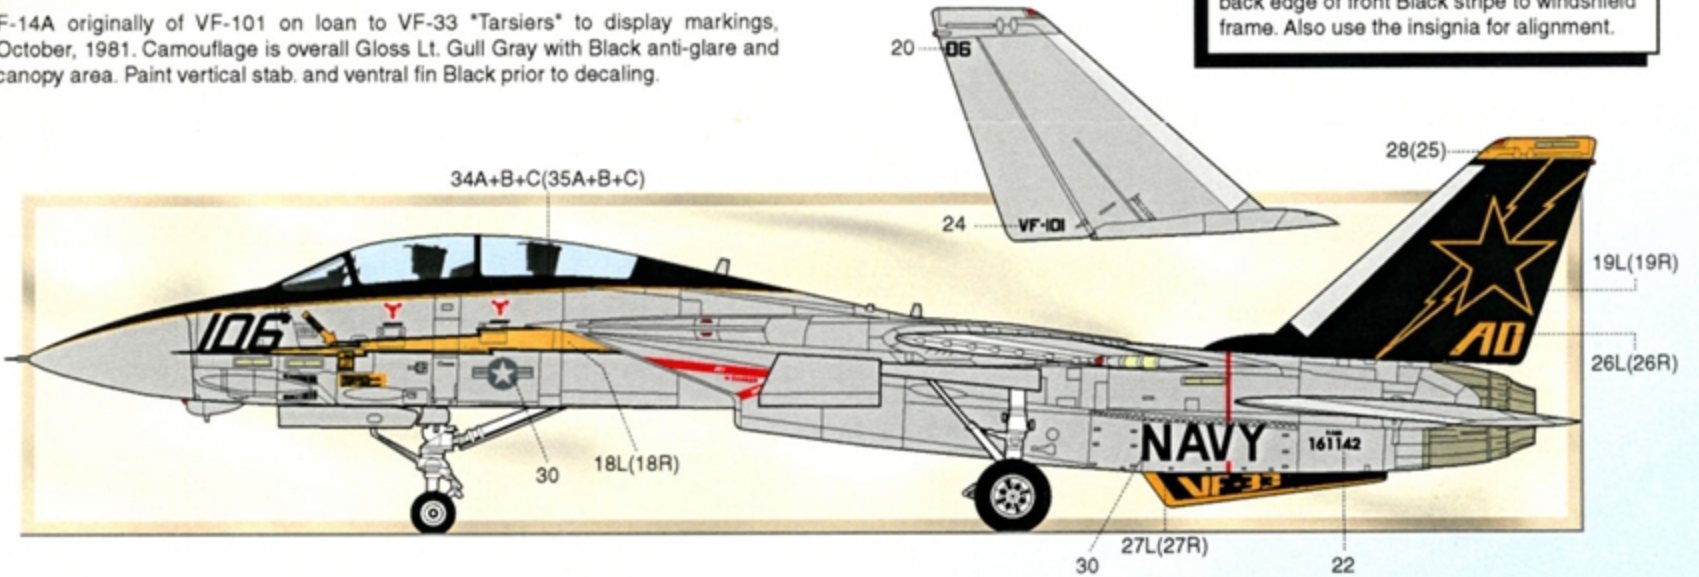

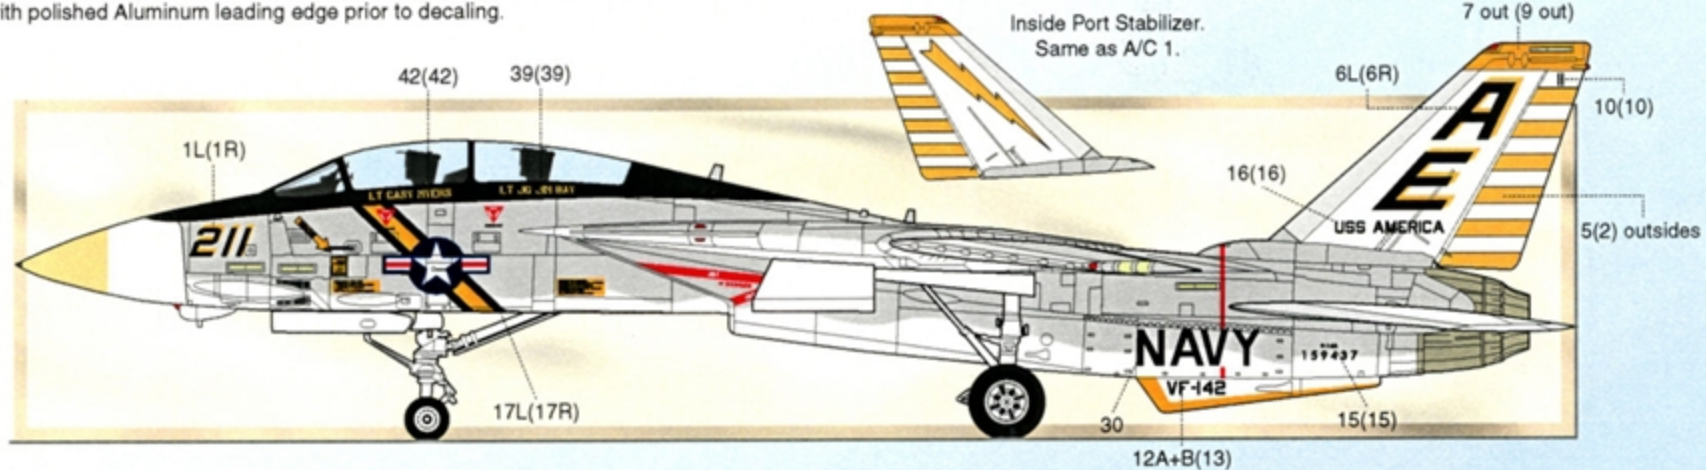

F-14A of VF-142 "Ghost Riders", 1975. Camouflaged in Lt. Gull Gray over Gloss White, with Black anti-glare and canopy area. Paint vertical stab. White with polished Aluminum leading edge prior to decaling. The pictures of 212 that we have, do not show the oblique Yellow/Black band across the insignia. Reference 2 states that all VF 142 A/C had this band, therefore we are providing them. Perhaps the paint job was not complete. Your choice either way.

F-14A originally of VF-101 on loan to VF-33 "Tarsiers" to display markings, October, 1981. Camouflage is overall Gloss Lt. Gull Gray with Black anti-glare and canopy area. Paint vertical stab. and ventral fin Black prior to decaling.

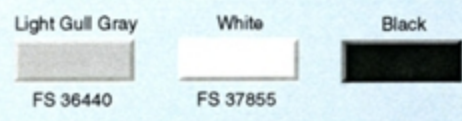

**Notes:**  
 Stencils are numbered on aircraft one only, but apply to all aircraft. For item #17, align bottom side to edge of missile well and top back edge of front Black stripe to windshield frame. Also use the insignia for alignment.

F-14A of VF-142 "Ghost Riders", October, 1975. Camouflaged in Lt. Gull Gray over Gloss White, with Black anti-glare and canopy area. Paint vertical stab. White with polished Aluminum leading edge prior to decaling.

Due to the complex fin tip shapes, decal pieces of the appropriate color are provided for a good patch-up job if needed.

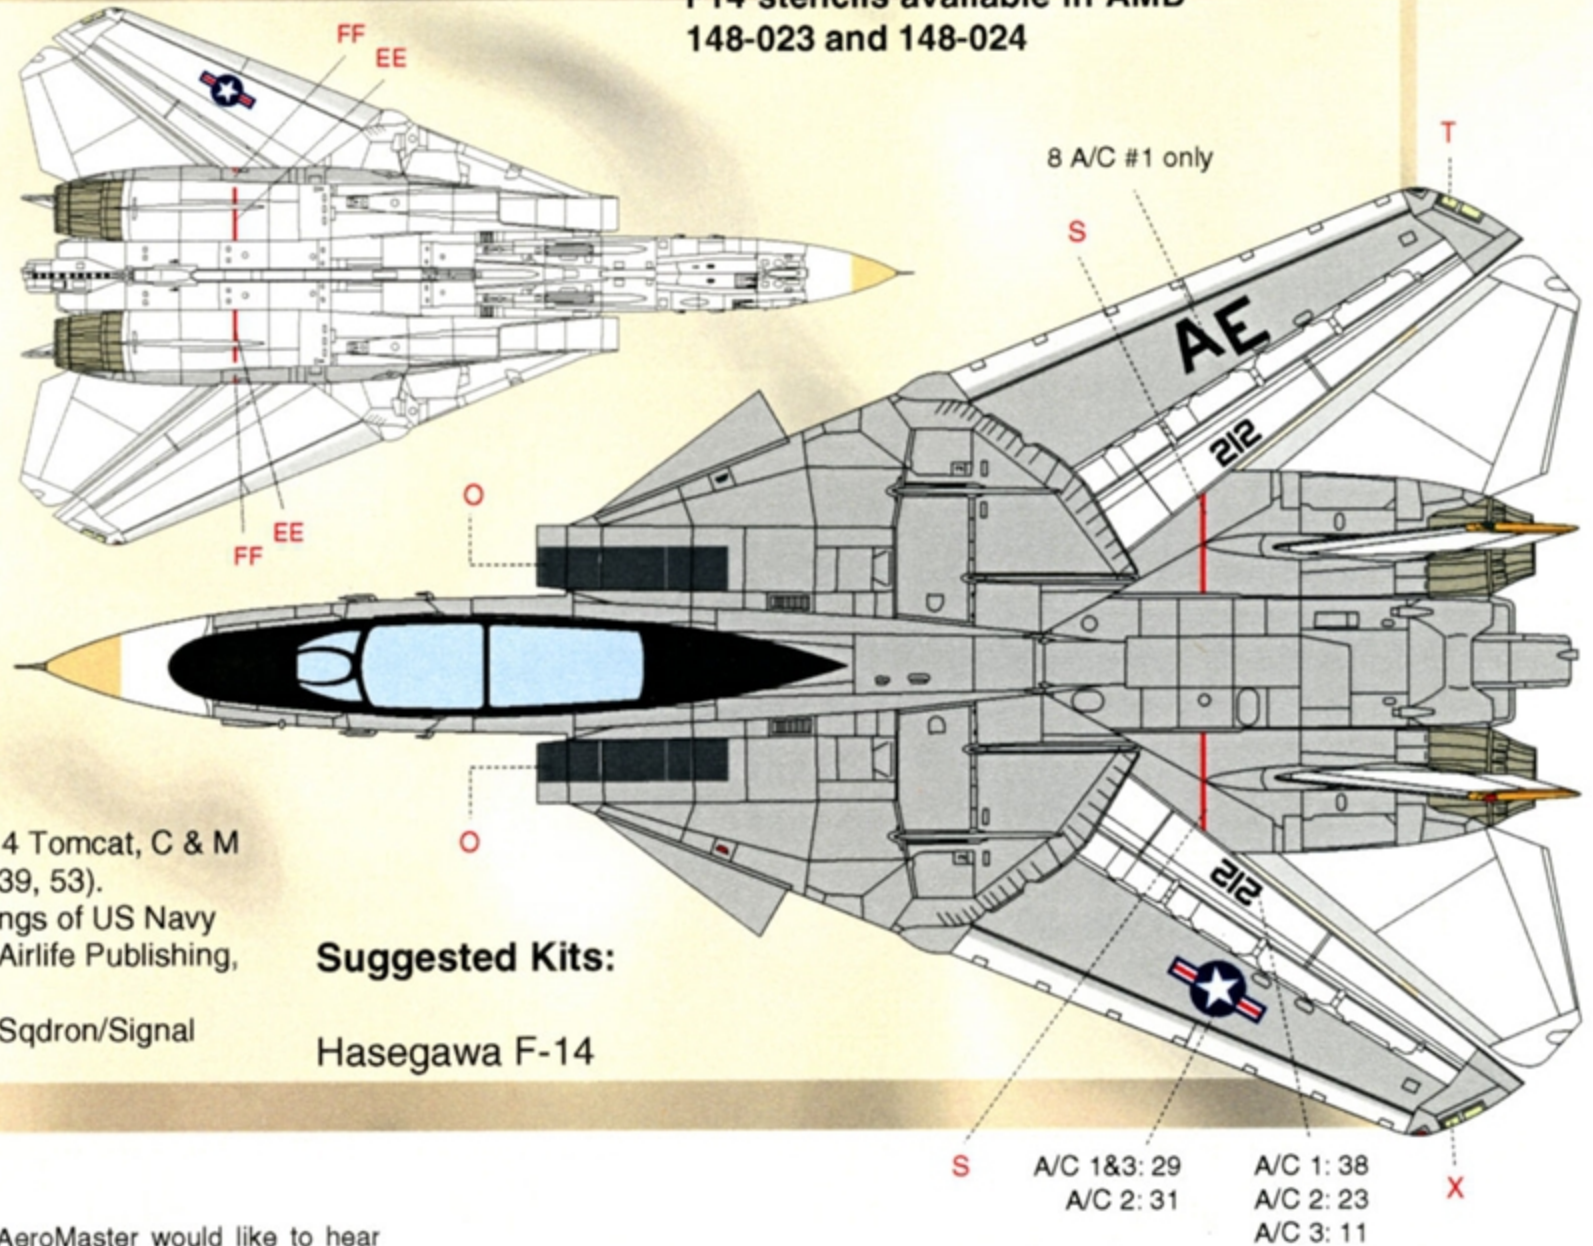

F14 stencils available in AMD  
148-023 and 148-024
