XA1141 FS17875 Insignia White
XA1404 Matt Black

Modellers Note:

Existing 1:72 AgustaWestland Merlin kits will need extensive converting to most of the featured options on this decal sheet. It is advised that the modeller find suitable reference photos of the real aircraft included on this sheet for accurate information on cabin window and door arrangements. At this time (Apr 2017) no aftermarket manufacturers have released any conversion sets for any of the options included here. Due to the lack of extensive close up photo walkarounds of these options the stencil sets have been abbreviated and only the most noticeable stencils are included.
